Technical Information

PrimeSTACK™

2PS13512E43W39689

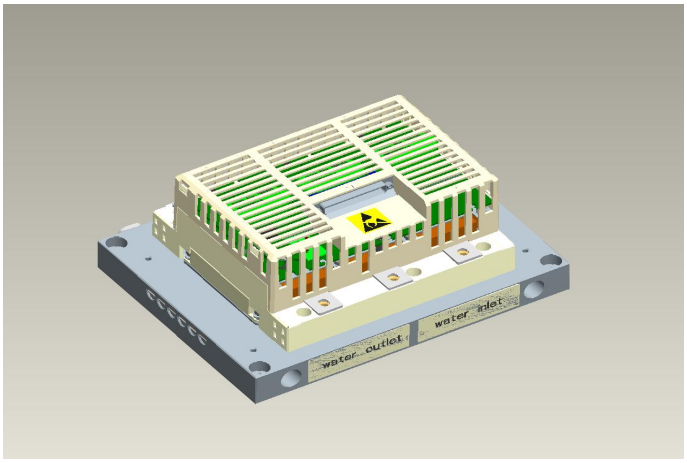
Preliminary data

General information

IGBT Stack for typical voltages of up to 400 V_{RMS}
Rated output current 900 A_{RMS}

· Solar power
· Motor drives
· High power converter

· 62mm power module
· Trenchstop™ IGBT4



Topology	1/2 B2I
Application	Inverter
Load type	resitive, indutive
Semiconductor (Inverter Section)	3x FF450R12KE4
Heatsink	water cooled
Implemented sensors	current, voltage, temperature
Driver signals IGBT	Electrical
Design standards	EN 50178
Approvals	UL 508C
Sales - name	2PS13512E43W39689
SP - No.	SP001132612

Preliminary data

Absolute maximum rated values

Collector-emitter voltage	IGBT; T_{vj} = 25°C	V_{CES}		1200	V
Repetitive peak reverse voltage	Diode; T_{vj} = 25°C	V_{RRM}		1200	V
Insulation management	according to installation height of 2000 m	V_{line}		500	V_{RMS}
Insulation test voltage	according to EN50178, f = 50 Hz, t = 1 s	V_{ISOL}		2.5	kV_{RMS}
Switching frequency inverter section		f_{sw2}		8	kHz

Notes
Further maximum ratings are specified in the following dedicated sections

Characteristic values

Terms & Conditions of usage

The data contained in this product data sheet is exclusively intended for technically trained staff. You and your technical departments will have to evaluate the suitability of the product for the intended application and the completeness of the product data with respect to such application.

This product data sheet is describing the characteristics of this product for which a warranty is granted. Any such warranty is granted exclusively pursuant the terms and conditions of the supply agreement. There will be no guarantee of any kind for the product and its characteristics.

Should you require product information in excess of the data given in this product data sheet or which concerns the specific application of our product, please contact the sales office, which is responsible for you (see www.infineon.com, sales&contact). For those that are specifically interested we may provide application notes.

Due to technical requirements our product may contain dangerous substances. For information on the types in question please contact the sales office, which is responsible for you.

Should you intend to use the Product in aviation applications, in health or live endangering or life support applications, please notify. Please note, that for any such applications we urgently recommend
- to perform joint Risk and Quality Assessments;
- the conclusion of Quality Agreements;
- to establish joint measures of an ongoing product survey,
and that we may make delivery depended on the realization of any such measures.

If and to the extent necessary, please forward equivalent notices to your customers.

Changes of this product data sheet are reserved.

Safety Instructions

Prior to installation and operation, all safety notices and warnings and all warning signs attached to the equipment have to be carefully read. Make sure that all warning signs remain in a legible condition and that missing or damaged signs are replaced.
