

Small Alligator Clip to Male Jumper Wire Bundle – 12 Pieces

PRODUCT ID: 3255

Description

For bread-boarding with unusual non-header-friendly surfaces, these cables will be your best friends! No longer will you have long strands of alligator clips that are grabbing little wires. These compact jumper cables have a premium male header on one end, and a grippy mini alligator clip on the other.

Grab onto your Flora, Circuit Playground, micro:bit, Gemma, or even a banana, and plug it into a breadboard for prototyping joy! You get 12 pieces in 6 colors.

12 piece set, color coded vinyl covered 1.25" alligator clips on one end, and male jumper wires on the other end

Contains two of each: black, red, white, green, blue, and yellow
24 AWG wire
