3M™ PELTOR™ MT™ Series 2-Way Communications Headset, Hard Hat Attached MT7H79P3E-C0054 1 EA/Case

3M Product Number MT7H79P3E-C0054, 3M ID 70071524378, UPC 10078371611702

- A premier hearing protection and communication solution for high noise environments
- Connects to two-way radios for improved communication in noisy environments
- Noise-cancelling boom microphone enables clear speech transmission in noisy environments
- Foam and liquid-filled cushions provide lasting comfort and an effective acoustic seal for long duration wear times

Specifications

Battery Type	1 AA Battery
Brand	PELTOR™
Built in 2-Way Radio	No
Built In FM and or AM Radio	No
Color	Black
Communication Type	Two-way radio
Communication via External 2-Way Radio	Yes
Compatible Radio Brands	Motorola
CSA Class	B
External Audio Input	No

Hearing Protection Style	Earmuff
Hearing Protection Type	Hard Hat Attached
In-Ear Solutions	No
Intrinsically Safe	No
Level Dependent Function for Ambient Listening	No
Microphone Class/Type	Dynamic
Noise Attenuating Headsets	Yes
Noise Reduction Rating	21 Decibel
Product Series	MT Series
Product Type	Communications Headsets
PTT Adapters or Interface Solutions	No
Recommended Industry	Design & Construction, Industrial Maintenance

Details

- A premier hearing protection and communication solution for high noise environments
- Connects to two-way radios for improved communication in noisy environments
- Noise-cancelling boom microphone enables clear speech transmission in noisy environments
- Foam and liquid-filled cushions provide lasting comfort and an effective acoustic seal for long duration wear times
- Hard hat attached model connects directly to compatible hard hats

This is a direct lead noise-attenuating two-way communication hard hat attached headset from the 3M™ PELTOR™ MT Series. It features a direct lead to several Motorola communication radios.

The 3M™ PELTOR™ MT™ Series 2-way Communication Headsets are specifically designed for industrial users in noisy environments. Incorporating 3M PI technology in both earcup design and electronics makes this headset, in conjunction with a 2-way radio, the ideal choice for clear, crisp 2-way communication areas. **Less Noise, More Communication.** This noise attenuating headset offers the dual benefit of reducing loud sounds that could be harmful to hearing while allowing workers to communicate with one another. Combined with a 2-way radio, the MT Series headsets enable workers to effectively discuss projects, give instructions, and verbally warn co-workers about safety hazards.
